

Service Pricelist 2018

Safety, Health and Environmental Monitoring Instrumentation

Including: Personal Gas, Confined Space Gases, Personal and Handheld VOC Measurement, MultiGas, Area Detection, Hand Held and Environmental Sound Levels, Human and Whole Body Vibration.

At Safety Monitors Limited we have been working in detection instrumentation for over 15 years and have a wealth of experience from a variety of manufacturers. We are happy to assist with a broad range of instrumentation with a guaranteed 5 day turn around time or your money back on our own manufacturers instruments*.

Our specialist team invests in the most up to date calibration equipment from our manufacturing partners which means we can offer you unparalleled speed and confidence you have access to the most advanced technology to keep your instruments at the top of their game for the long term.

If there are items you would like calibrated or serviced which don't fall into our standard remit as detailed then do get in contact as we may still be able to help you or at least point you in the right direction.

Servicing is a vital part of keeping your fleet at their best and keeping any down time to the minimum and with this in mind we are also able to offer long term service contracts on individual instruments or on fixed gas detection systems.

Our partners in fixed gas enable us to provide you with the foremost on site servicing of a broad range of detection systems with an engineer on site when you need them to keep your systems up and running.

Over the years we have dealt with a broad range of manufacturer's technologies and are able to offer service and calibration beyond our standard portfolio but please call us to discuss this in some more detail.

We are a fully authorized Honeywell and RAE Service Centre and have certification for Level 1 and 2 service Centre status so you can be assured of the highest quality service.

* 5 day turnaround based on a standard calibration and service with no parts required this includes transit time.

SAFETY MONITORS

Single Gas Monitors

Including Carbon Monoxide, Hydrogen Sulphide, Oxygen contact us for other exotics usually these can be provided at the same cost

£30.00
per unit

Confined Space Gas Monitors

Including Carbon Monoxide, Hydrogen Sulphide, LEL (Methane) and Oxygen

£30.00
per unit

Handheld VOC & Direct Reading Benzene Monitors

Including 100ppm Isobutylene, 1000ppm Isobutylene & 5ppm Benzene

£135.00
per unit

SAFETY MONITORS

£25.00
per unit +
£10 per
sensor

Multi Gas Monitors

Including Carbon Monoxide, Hydrogen Sulphide, Oxygen, LEL, VOC contact us for other exotics usually these can be provided at the same cost

£30.00
per unit

Personal PIDs

Including 100ppm Isobutylene and/or 1000ppm Isobutylene

£135.00
per unit

Area Gas Monitors

Including Carbon Monoxide, Hydrogen Sulphide, Oxygen, LEL, VOC contact us for other exotics usually these can be provided at the same cost

Sound Level Meters

Options include Type 2/1 or Octave and 1/3 Octave capabilities

£285 per
unit
+Octave
Bands £90

Human Vibration Meters

Unit should be calibrated with accelerometer(s)

£265 unit
+ Accelerometer
£220

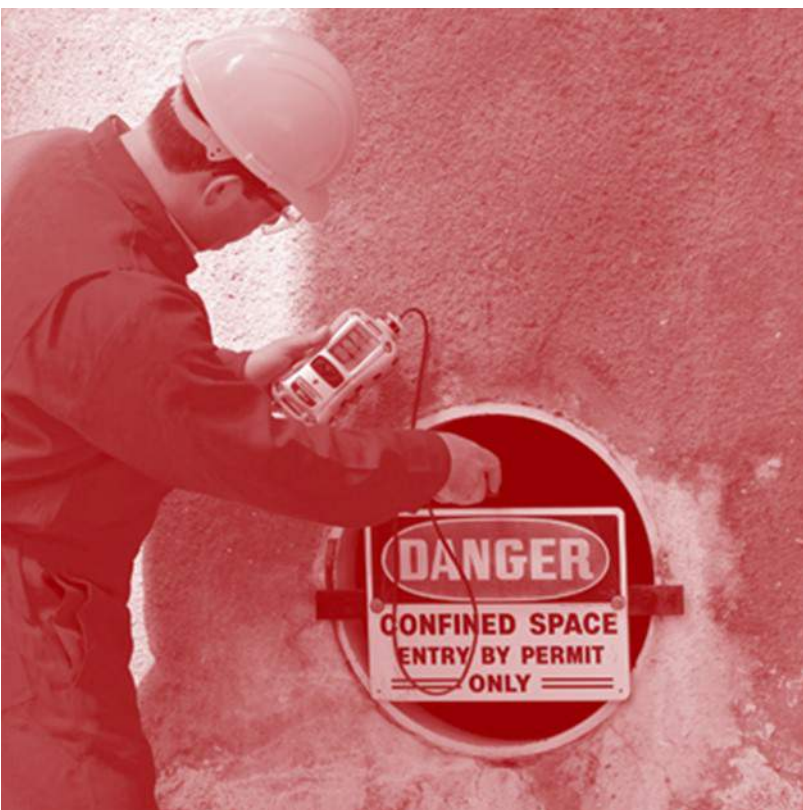

Ground and Building Vibration Meters

Calibration to UKAS standards

£265.00
per unit

Unit 11 Mill Court, The Sawmills, Durley, Southampton SO32 2EJ U.K.
